EDUCATION

D.B.J College

Bachelor of Science in Computer Science - **CGPA - 8.07**

06 2021 – 05 2024

Chiplun, Maharashtra

TECHNICAL SKILLS

Languages: C, C++, JavaScript, TypeScript, SQL, NoSQL.

Developer Tools: VS Code, Android Studio, GitHub, Prisma ORM, Postman.

Technologies/Frameworks: ReactJS, Next.js, Tailwind CSS, Radix UI, Redux, Node.js, Express.js, MongoDB, NeonDB, Supabase, Gmail API, Gemini AI, Inngest, Razorpay, Framer Motion.

EXPERIENCE

Frontend Developer Intern — FyxaLab 🔗

Mar 2025 – Nov 2025

Remote

- **Frontend Development** – Designed and delivered responsive UIs for **GigiFyx**, a dental appointment marketplace, using **Next.js**, **TypeScript**, and **Tailwind CSS**.
- **Booking Engine** – Engineered real-time **appointment scheduling** with **slot management**, **conflict detection**, and an intuitive **multi-step booking flow**.
- **Backend & API Integration** – Built scalable database operations with **Prisma ORM + PostgreSQL**. Developed and optimized **RESTful APIs** for clinic search, booking, and user management with **debounced search and caching** for performance.

PROJECTS

Stuff 🔗 Next.js, React, TypeScript, Tailwind CSS, Prisma, PostgreSQL, NeonDB, UploadThing Jan 2026

- **Pinnable Visual Content Builder** – Built a system where users can **upload images** and **add interactive pins** on specific products within the image.
- **Product Linking via Pins** – Enabled each pin to store **external product links**, allowing creators to turn static images into **shoppable content**.
- **Creator-Focused Use Cases** – Designed flows tailored for **desk setups**, **outfits**, **room tours**, and **gear showcases**, making it easy to share every item in a single image.
- **Publish & Link-in-Bio Flow** – Implemented a publish flow that generates a **public profile page** acting as a **link-in-bio** for all published Stuffs.
- **Public Sharing Experience** – Created **shareable public pages** where viewers can explore pinned products and navigate directly to purchase links.
- **Ownership & Access Control** – Enforced **strict authorization** to ensure only creators can edit, publish, or delete their Stuffs.

Doksy 🔗 Next.js, Tailwind CSS, TypeScript, Prisma, PostgreSQL, Zod, BetterAuth, Milkdown Aug 2025

- **Automated Documentation Builder** – Built a platform that converts **README files into structured docs websites**, reducing setup time for developers by 70%.
- **GitHub Integration** – Integrated **BetterAuth with GitHub login** to fetch repositories directly and manage documentation.
- **Custom Navigation** – Enabled users to **add and organize pages dynamically** via a sidebar system.
- **Rich Markdown Editing** – Integrated **Milkdown editor** with live preview for seamless editing.
- **Optimized Performance** – Leveraged **Next.js streaming** for fast rendering of large documentation projects.
- **User Experience** – Increased adoption by providing a **collaborative, Notion-like editing experience** for teams.

ACHIEVEMENTS

Codebits-2 Hackathon 🔗

05 2024 – 05 2024

Frontend Developer

Gharda College, Maharashtra

- * Developed frontend for Guidemap app, enabling users to create **event maps by adding location points** (e.g., tea stall, registration point), enhancing event **organization and navigation**.
